Attention: To Whom It May Concern

Secure Building Solutions

We have worked with Secure Building Solutions on a range of projects with varying sizes and complexities. All projects have been alterations within existing schools.

The communication from both directors was excellent, as they worked tirelessly to ensure all parties knew what works were scheduled and when they would occur. This is particularly perinate when working within an operational school environment.

The direct contact with the directors made it easy to negotiate through any changes to ensure quality, time and cost was maintained.

We would be more than happy to work with Secure Building Solutions again!

Yours faithfully
Leaf Architecture Pty. Ltd.

DANIEL SMITH
Director
